PROFILE SUMMARY

Cloud & DevOps Engineer with 7+ years of experience in Cloud Infrastructure,
Site Reliability Engineering (SRE), Automation, and Enterprise Backup Solutions.
Skilled in AWS Cloud, Infrastructure as Code (Terraform), Monitoring (Zabbix, Grafana)
and Backup technologies (Veeam, Commvault, IBM Spectrum Protect, Veritas).
Proven expertise in designing, implementing, and managing highly available systems
while ensuring data protection, scalability, and cost efficiency.

CORE SKILLS
• **Cloud & DevOps: AWS, Terraform**
• **Monitoring & Automation: Zabbix, Grafana, SRE practices**
• **Backup & DR Tools: Veeam B&R, Commvault, IBM Spectrum Protect (TSM), Veritas, Altaro, Ve**
• **Operating Systems: Linux, Windows, IBM AIX**
• **Scripting & Databases: Shell scripting, MS-SQL, PostgreSQL**
• **Other Tools: Git, BMC Remedy, ManageEngine, SMARTONE**

PROFESSIONAL EXPERIENCE

i-Source Infosystems Pvt. Ltd. | Pune, India
Cloud & DevOps Engineer | AWS | SRE | Automation & Monitoring | Sep 2022 – Present

• Designed and implemented AWS Cloud infrastructure with high availability and scalability.
• Automated infrastructure provisioning using Terraform and streamlined deployment workflows.
• Built monitoring frameworks using Zabbix and Grafana for proactive detection.
• Implemented SRE practices to improve system reliability.
• Developed automation scripts for backup, patching, and routine tasks.
• Collaborated with security teams to enforce cloud compliance and data protection policies.

Alchemy Techsol India Pvt. Ltd. | Pune, India
Senior Backup Administrator (DR & Monitoring Automation) | Jul 2021 – Sep 2022

• Managed enterprise backup solutions with Veeam, Commvault, IBM TSM, and Altaro.
• Implemented backup monitoring automation, improving job success rates by 25%.
• Designed and tested DR strategies to ensure business continuity.
• Conducted root cause analysis (RCA) and implemented preventive measures.
• Provided L2/L3 support for backup operations across multiple platforms.

Softenger India Pvt. Ltd. (Vodafone Idea Project) | Pune, India
TSM Administrator (Backup & Automation) | Nov 2017 – Jul 2021

• Supported and optimized IBM Spectrum Protect (TSM) backup infrastructure.
• Configured LAN-free backup solutions for Windows, AIX, and Linux.
• Automated backup schedules and improved monitoring to reduce failures.
• Managed media in tape libraries and conducted compliance audits.
• Delivered on-demand backup & restoration services and RCA reports.

EDUCATION

Dr. D. Y. Patil Institute of Engineering & Technology, Pune
Bachelor of Engineering (Electronics & Telecommunication)

CERTIFICATIONS (In Progress / Achieved)
• AWS Certified Solutions Architect – Associate (in progress)
• Terraform Associate (in progress)
• ITIL Foundation

STRENGTHS
• Strong blend of Cloud, DevOps, and Backup expertise.
